REQUEST FOR CORRECTED
FILING RECEIPT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Madam:

Applicant respectfully requests that the priority application listed in the PAIR system for the above-identified application be corrected to read as follows:

- **PCT/US2004/041070 filed December 3, 2004.**

Applicant further requests that a corrected filing receipt reflecting the true and correct priority date of **December 3, 2004** for PCT Application No. **PCT/US2004/041070**, be issued by the Patent Office.

BACKGROUND

On December 8, 2008, Applicant's petition to correct domestic priority information in this matter was granted by the Patent Office. In this decision, the Examiner agreed that the notice of acceptance and filing receipt mailed to Applicant on September 3, 2008 were defective, as both documents referred to "PCT/US04/14070" rather than **PCT/US2004/041070**. The decision also indicated that a new filing receipt and notice of acceptance would be mailed to the Applicant. However, to this date Applicant has not received a new filing receipt nor a notice of acceptance showing the correct PCT information.

CONCLUSION

Applicant believes that no fee is required for submission of this request since the error was made by the USPTO. However, if a fee is required, the Commissioner is authorized to deduct such fee from the undersigned's Deposit Account, No. 50-0310.

If the Examiner believes a telephone conference would expedite prosecution of this request, please telephone the undersigned at 415-442-1490.

Respectfully submitted,

Ada O. Wong

DECISION

This is in response to applicants' correspondence filed on 15 October 2008.

BACKGROUND

International application PCT/US2004/041070 was filed on 03 December 2004, claimed an earliest priority date of 03 December 2003, and designated the United States. The 30 month time period for payment of the basic national fee in the United States expired as of midnight on 03 June 2006. A basic national fee was paid in 10/576,506 on 18 April 2006.

On 03 September 2008, a Notice of Acceptance (Form PCT/DO/EO/903) and a Filing Receipt were mailed to applicants; both documents referred to "PCT/US04/14070" rather than PCT/US2004/041070.

DISCUSSION

Counsel "respectfully requests that the priority application listed in the PAIR system for the above-identified application be corrected to read as follows: PCT/US04/14070 filed December 3, 2004." Counsel also "requests that a corrected filing receipt, reflecting the true and correct priority date of December 3, 2004 for PCT Application No. PCT/US04/41070, be issued by the Patent Office."

Review of the record reveals that the Transmittal Letter, preliminary amendment, IDS and ADS filed on 18 April 2008 all identified this application as the national stage under 35 U.S.C. 371 of PCT/US2004/041070, rather than PCT/US04/14070 as indicated on the Notice of Acceptance and on the Filing Receipt. The bibliographic information pertaining to PCT/US2004/041070 matches that appearing on the papers filed on 18 April 2006. Therefore, both the Notice of Acceptance and the Filing Receipt mailed on 03 September 2008 were defective, and both are hereby **VACATED**.

DECISION

The request is **GRANTED**, to the extent noted.

This application is being returned to the Office of Patent Application Processing for correction of the electronic records of the USPTO to show its correct status as the national stage of PCT/US2004/041070. A new Notice of Acceptance (Form PCT/DO/EO/903) and a new Filing Receipt showing the correct PCT information will also be prepared and mailed to applicants.

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
